### 출판사 소개

### Association for Computing Machinery (ACM)

- 1947년 설립된 Association for Computing Machinery (<a href="http://www.acm.org">http://www.acm.org</a>)는 컴퓨터 및 IT 관련 모든 분야에 대한 최신 정보를 제공하는 협회로서, 현재 전 세계 80,000여 명 이상의 회원을 보유
- ACM 회원들은 단순히 기술보고서나 논문을 게재하는 활동 이외에도, 연구 시발생 되었던 문제들과 해결 방법, 그리고 수록된 기술 보고서나 논문에 대한 Review를 제시함으로써 컴퓨터 관련 분야의 가장 권위 있는 Community를 형성하고 있음

### 수록내용

- 1. 주제분야 : 컴퓨터 공학분야
- 2. 수록내용 :
  - \* The ACM Digital Library

컴퓨터 공학 분야의 Journal, Magazine, Transaction, Conference Proceeding, Publications by Affiliated Organizations, Book, Technical Reports 및 Newsletters의 원문(PDF형식) 및 논문의 서지 정보 제공

- 1950년부터 현재까지
- 410,000여 건의 원문과 2,000,000여 건의 서지 Records 제공
- 매년 2만 5천 역건의 Records update
- Audio, Video, Animation을 포함한 800개 이상의 multi-media 파일

Application으로

The ACM DL app for Andr Windows is now available

As an ACM DL user:

- Sign-in or Sign-up to the ACM DL with your ACM Web Account now.
- 2. Install the ACM DL app onto your device, (see below).
- 3. Sign in to the AOM DL app with your ACM Web Account.

DONE—You now have access to the ACM DL on your mobile device.

Recently loaded issues and proceedings: (available in the DL within the past 2 weeks)

ACM Computing Surveys (CSUR) Volume 48 Issue 3

ACM Journal on Emerging Technologies in Computing Systems (JETC)

Volume 12 Issue 4

January of the ACM (JACM)

#### ACM Journals/Transactions

#### CSUR ACM Computing Surveys (CSUR)

These comprehensive, readable tutorials and survey papers give guided tours through the literature and explain topics to those who seek to learn the basics of areas outside their specialties. The carefully planned and presented introductions in <u>Computing Surveys (CSUR)</u> are also an excellent way for professionals to develop perspectives on, and identify trends in complex technologies. Recent issues have covered image understanding, software reusability, and object and relational database topics.

### Browse - Browse the ACM Magazines

#### CACM Communications of the ACM

ACM's flagship magazine, <u>Communications of the ACM</u>, is the premier chronicler of computing technologies, covering the latest discoveries, innovations, and research that inspire and influence the field. Each month, <u>Communications</u> brings readers in-depth stories of emerging areas of computer science, new trends in IT, and practical research applications. Industry leaders choose <u>Communications</u> to debate technology implications, public policies, engineering challenges, and market trends.

Read by over 85,000 computing researchers and practitioners worldwide, *Communications* is recognized as the most trusted and knowledgeable source of industry information for today's computing professional.

#### CIE Computers in Entertainment (CIE)

<u>Computers in Entertainment (CiE)</u> is an online-only magazine about a wide range of theoretical and practical computer applications in the entertainment industry, including engagement, playfulness, creative technique, business, pleasurability, and "funology." CiE publishes peer-reviewed research papers and articles, as well as commentaries, opinion articles, video interviews as well as their transcriptions, creative content such as games and artwork, and more.

Editor-in-chief Newton Lee, the founder of CIE, oversees the publication. Unsolicited article submissions are welcomed and can be uploaded online at <a href="http://mc.manuscriptcentral.com/cie">http://mc.manuscriptcentral.com/cie</a>.

#### eLearn

<u>eLearn</u> magazine is published by ACM, a not-for-profit educational association serving those who work, teach, and learn in the various computing-related fields. Founded in 1947 as the Association for Computing Machinery, ACM's stated mission is to advance the arts, sciences, and applications of information technology. It is the oldest and most respected organization of its kind.

The Autonomous Agents and MultiAgent Systems (AAMAS) conference series brings together researchers from around the world to share the latest advances in the field. It is the premier forum for research in the theory and practice of autonomous agents and multi-agent systems. AAMAS 2002, the first of the series, was held in Bologna, followed by Melbourne (2003), New York (2004), Utrecht (2005), Hakodate (2006), Honolulu (2007), Estoril (2008), Budapest (2009), Toronto (2010), Taipei (2011), Valencia (2012), Saint Paul (2013), and Paris (2014). This volume constitutes the proceedings of AAMAS 2015, the fourteenth conference in the series, held in Istanbul in May 2015.

#### The VR Book: Human-Centered Design for Virtual Reality

Jason Jerald - 2015

Virtual reality (VR) can provide our minds with direct access to digital media in a way that seemingly has no limits. However, creating compelling VR experiences is an incredibly complex challenge. When VR is done well, the results are brilliant and pleasurable experiences that go beyond what we can do in the real world. When VR is done badly, not only is the system frustrating to use, but it can result in sickness.

#### Ada's Legacy: Cultures of Computing from the Victorian to the Digital Age

Robin Hammerman, Andrew L. Russell - 2015

Ada's Legacy illustrates the depth and diversity of writers, thinkers, and makers who have been inspired by Ada Lovelace, the English mathematician and writer. The volume, which commemorates the bicentennial of Ada's birth in December 1815, celebrates Lovelace's many achievements as well as the impact of her life and work, which reverberated widely since the late 19th century. In the 21st century we have

#### Edmund Berkeley and the Social Responsibility of Computer Professionals

Bernadette Longo - 2015

Edmund C. Berkeley (1909--1988) was a mathematician, insurance actuary, inventor, publisher, and a founder of the Association for Computing Machinery (ACM). His book "Giant Brains or Machines That Think" (1949) was the first explanation of computers for a general readership. His journal "Computers and

#### How to access the ACM BOOKS:

ACM Members can have full access to all Collections in the ACM Books series by purchasing an annual subscription.

- · Professional Members \$29 per year
- Student Members \$10 per year

### Individuals who are not members of ACM may purchase individual titles only, through popular book and e-book retailers.

Institutions may purchase individual collections from the ACM Books series.

#### **ACM Special Interest Groups**

#### SIGACCESS Special Interest Group on Accessibility and Computing

The ACM Special Interest Group on Accessible Computing promotes the professional interests of computing personnel with disabilities and the application of computing and information technology in solving relevant disability problems. The SIG also strives to educate the public to support careers for people with disabilities.

#### SIGACT Special Interest Group on Algorithms & Computation Theory

The ACM Special Interest Group on Algorithms and Computation Theory is an international organization that fosters and promotes the discovery and dissemination of high quality research in theoretical computer science (TCS), the formal analysis of efficient computation and computational processes. SIGACT, through its awards program, recognizes individuals who have made significant contributions to the field in research and service. TCS covers a wide variety of topics including algorithms, data structures, computational complexity, parallel and distributed computation, probabilistic computation, quantum computation, automata theory, information theory, cryptography, program semantics and verification, machine learning, computational biology, computational economics, computational geometry, and computational number theory and algebra. Work in this field is often distinguished by its emphasis on mathematical technique and rigor.

#### SIGAda Special Interest Group on Ada Programming Language

The ACM Special Interest Group on Ada Programming Language provides a forum on all aspects of the Ada language and technologies, including usage, education, standardization, design methods, and compiler implementation. SIGAda's annual conference addresses Ada's role in building industrial-strength applications that support mission-critical, safety-critical, real-time, distributed, high-assurance, and high-integrity requirements. Supporting technologies that SIGAda focuses on include software engineering, software development processes, object technology, computer science education, tools, Common Object Request Broker Architecture (CORBA), and Java.

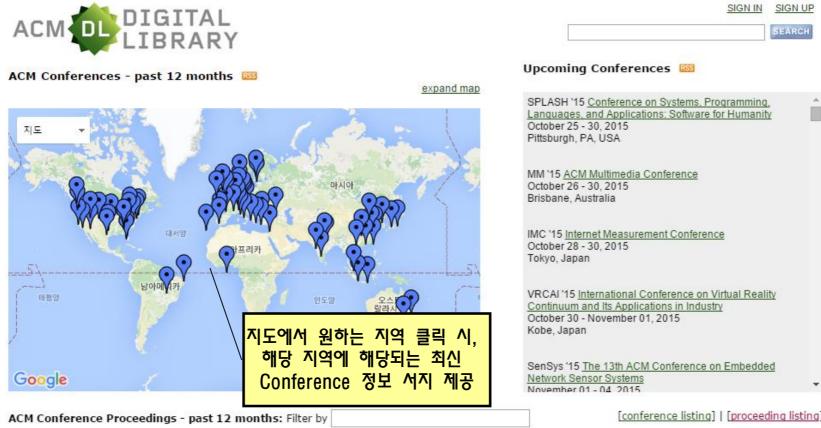

#### SIGAI Special Interest Group on Artificial Intelligence

The scope of SIGAI, ACM's Special Interest Group on Artificial Intelligence, consists of the study of intelligence and its realization in computer systems. SIGAI's mission is to promote and support AI-related conferences. Members receive reduced registration rates to all affiliated conferences. Members also receive proceedings from the major SIGAI-sponsored conferences. SIGAI publishes a quarterly newsletter, AI Matters, with ideas and announcements of interest to the AI community.

#### **Evolutionary Computation**

Evolutionary Computation provides an international forum for facilitating and enhancing the exchange of information among researchers involved in both the theoretical and practical aspects of computational systems of an evolutionary nature. The journal publishes both theoretical and practical developments of computational systems drawing their inspiration from nature, with particular emphasis on evolutionary algorithms (EAs), including, but not limited to, genetic algorithms (GAs), evolution strategies (ESs), evolutionary programming (EP), genetic programming (GP), classifier systems (CSs), and other natural computation techniques.

The VLDB Journal — The International Journal on Very Large Data Bases

The VLDB Journal is a quarterly journal published by the VLDB Endowment. The journal is dedicated to the publication of scholarly contributions to the advancement of information system architectures, the impact of technological advancements on information systems, and the development of novel database applications. The journal was launched in July 1992. It is now published both in electronic and printed form by Springer-Verlag, beginning with Volume 5 (1996).
